

Conference Room Multimedia Instructions

1. **Power:** Press the Power "ON" button located on top of the control panel
 - a. Lower the projection screen (the switch is located on the wall next to the control panel).

NOTE: When turning on the projector there will be a slight delay before the picture appears on the screen.

2. **Source:** Press the Source button to change input sources.
 - b. There are four options.
Laptop/Computer (RGB1), DVD/VCR (Video or S-Video), AppleTV (HDMI).

NOTE: When changing sources there will be a slight delay before the picture appears on the screen.

3. **Volume:** Press the "Down" arrow to lower the volume. Press the "UP" arrow to raise the volume.

4. **Table Top Connector Box:** Press firmly on the tabletop connect box to open.

5. **Table Top Connections:** DVD/VCR. Use the supplied connector cables to plug in the DVD/VCR video and audio.

NOTE: You may only have one video input (Video or S-Video) connected at a time.

Conference Room Multimedia Instructions

6. **Table Top Connections:** Laptop. Use the supplied connector cables to plug in the Laptop video and audio.

7. **Table Top Connections:** Analog phone line and RJ-45 network.

8. **Table Top Connections:** Power receptacles.

9. **AppleTV:** Change source input to HDMI. You can use the AirPlay feature on your Apple device to mirror your device onto the screen. The Apple TV is named ATV ICT148C. A password is required (see room manager for password).

NOTE: Your Apple mobile device must be an iPhone 4S (or later) or iPad 2 with iOS 5.0 (or later). Your Mac device must be a mid-2011 iMac, MacBook Air, or Mac Mini or an early 2011 MacBook Pro (or later) with OS X Mountain Lion (10.8). Some features of AirPlay may work with older Macs using 3rd party software (such as AirParrot). Please refer to Apple KB article HT5209 for instructions on using AirPlay.
